## OF TIGERLAND VENUES ARE TRAINED SAFE BARS

When students at Louisiana State University go out in Tigerland, the bartenders, servers, and managers at their favorite venues are working to give them a safe night out.

### SAFE NIGHT OUT

**91%** of Tigerland employees know at least one thing they will do when they notice someone is uncomfortable or unsafe.

“ I will directly ask the uncomfortable person if they're okay or try to distract the aggressor by sparking a conversation with them. ”

**100%** know at least one thing they will proactively do to make sure everyone has a safe night out.

“ With newer employees, I share examples of situations I've seen and how I have handled them to make sure they know it's something we all look out for and act on. ”
